

Certificate in Banking Technology -Value Added Programme by IDBI

INTECH, Mumbai

Institute of Professional Studies And Research is playing a dominant role in the field of Management, Finance and Information Technology education. The Institute is known for its quality, commitment in imparting knowledge, wisdom and shaping the future of undergraduate and Post Graduate students. The institution believes in making students self reliant for their future exposure in the practical field. The Institution has been offering the different value addition courses like SAP, Capital Market etc.

Recently, the institution undertook a programme on 'Certificate in Banking Technology' by a team of IDBI Intech, Mumbai headed by the Project Manager Ravindra Kshirsagar from 2nd of August to 7th August 2010 covering a wide range of banking operations and systems followed practical training on 'Finacle Software' application used by Banks for their core Banking solutions. The students were happy with the input given to them which will provide the position direction for their future professional growth.

On the concluding day the students appeared an examination conducted by the Project Manager and trainer was quite pleased about the performance of students. At the end of the training programme certificates awarded by IDBI Intech.

The institution did bear 75% of the cost of the programme and students contributed 25% of the cost of the programme. It was a combined programme offered to students of MBA (Finance) and Master in Finance & Control (MFC). The students were selected for programme on the basis of screening test conducted by institution to select students with better performance. The Institution also aims to repeat the programme in future for the benefit of more and more number of students.

IPSAR is the only institution to conduct the programme.
